**DETAILED ACTION**

1. Claims 1-21 are presented for examination.

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-9, drawn to method of creating hyperlink for document processing, classified in class 715, subclass 500.
- II. Claims 10-21, drawn to interactive opto-touch folio, classified in class 345, subclass 173.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as in a method of creating hyperlink for document processing, lacking the particulars of invention II. See MPEP § 806.05(d). Also the restriction requirement is based on the interpretation

that every dependent claim is dependent on the preceding independent claim (note Applicant's claim numbering).

3. Because the inventions are distinct for the reason given above and have acquired a separate status in the art as shown by their different searches and their recognized divergent subject matter, and the search required for one Group is not required for another, restriction for examination purpose as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 C.F.R. 1.17(h).

5. A telephone call was made to David R. Irvin on 01/05/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this office action.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
